

## Profile 2 - Junior Researcher on Low Carbon transition

GREEN – Centre for Research on Geography, Resources, Environment, Energy and Networks (<https://green.unibocconi.eu/>), is the research centre of **Bocconi University** that conducts and promotes research on the intersection between socio-economic phenomena and climate change, transportation, environmental policy and energy markets.

*The candidate will be involved and will contribute to the following activities:*

- Design, develop and undertake innovative research activities on low carbon transition policies at different levels (European, national, local-urban)
- Identify and analyse models and cases of energy communities
- Drafting publications, such as research reports, scientific papers and position papers
- Develop presentations and other dissemination outputs
- Organizing dissemination events, ranging from workshops to international conferences, to promote the research results.

### Requirements:

- Post-Graduate Degree in Economics, Environmental economics or Energy economics. Preference will be given to candidates with relevant work experience and/or holding a pertinent master/PhD.
- Good knowledge of European and national policies on climate and energy.
- Good knowledge of software for statistical analysis.
- Strong written and oral communication skills in Italian and English.
- Previous experience in drafting publications and organizing events is considered a plus.

**Job duration:** six months, with possibility of multiple-year renewal

**Job location:** Via Guglielmo Roentgen 1, 20136 Milan (Italy)
